# BATTERY CHARGER

## CHARGE ON, POWER UP

### ► Battery Charger - 10 AMPS 72V

ATS ELGI Professional Manual Battery Charger for charging all types of batteries (WET) with selectable 12/24/36/48/60/72V voltage that are attached to regardless of the battery's charge level.

Designed for use in workshops, garages, battery service stations and retail outlets, where there is a requirement for charging 6 batteries simultaneously in series.

A voltmeter or hydrometer is required to check the battery condition periodically and switch off the charger, once the batteries are fully charged.

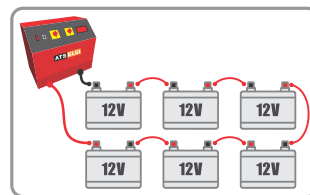

### ► Technical Specifications

|                        |  |
|------------------------|--|
| Test Range             | : 25 Ah to 80 Ah Battery                 |
| Charging Current       | : Max. 10 Amps                           |
| Supply Voltage         | : 220 V, 50 Hz                           |
| No. Of Battery Charged | : Max. 6 Batteries Selectable (12V Each) |
| Battery Type Charged   | : Lead Acid Batteries                    |
| Unit Dimension         | : 420 x 250 x 350 mm (Approx.)           |
| Unit Weight            | : 19 kg (Approx.)                        |

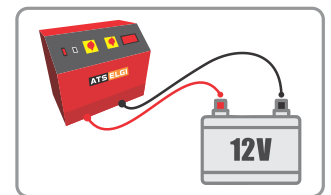

### ► Features

- Robust built
- Ampere meter for Battery AMPS
- Selector switch for Amp selection
- Selector switch for Volt selection
- Available for 4, 6, 8, & 10 Amps
- Overload protection

### ► Application

Connected with 6 Batteries (Max)

Connected with 1 Battery (Min)

### ► Benefits

LOW  
MAINTENANCE

COST  
EFFECTIVE

EXTEND  
BATTERY LIFE

SIMPLE  
TO USE
